

IMPACT REPORT

2019 ONEMILLIONCHILDREN

We exist to transform the lives of one million children in Africa, helping them to reach their God-given potential through clean water and gospel teaching.

We provided bikes to ten graduates of our Hope for Zambia Bible School to oversee our children's ministry sites. The success of this strategy was almost immediate. We have gone from 58 sites to 95 this year.

We visited the first well that we repaired in 2016. We wanted to see how the well was performing and to hear from the villagers what our repair has meant to them. We are proud to say it is in excellent condition to this day!

We require our Hope for Zambia Bible School students to go on at least two expeditions before graduating. They go out into the bush for a weekend and they minister there. This is Simon praying for a group of children.

Transforming Lives and Futures

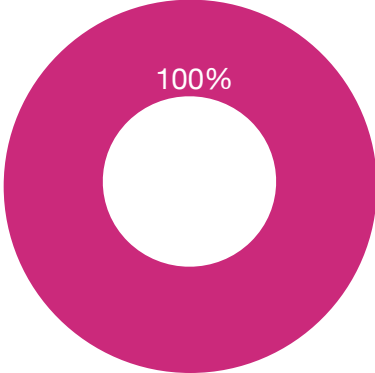

Total Operational and Ministry Costs: \$152,589.80

- Children's Ministry
- Mission School
- WellRepair

- Stateside Operations
- Zambia Operations
- Ministry Expenses

- Private Donors

WHERE WE ARE HEADING IN 2020

- ★ Well Repair - Bring health and strong futures to families by providing clean water to more schools and communities.
- ★ Children's Ministry - Making disciples by publishing and implementing a new foundational curriculum at our Hope for Children sites and continuing to develop additional locations.
- ★ Mission Training - Empower Christian leaders by implementing Pastoral Conferences and expanding enrollment in the Hope for Zambia Bible School.
